SNOWFLAKES MADE FROM TRADITION CZECH SEED BEADS

Snowflake

Snowflake

Create a snowflake and decorate your Christmas tree or the windows or your home.

Materials and tools:

PRECIOSA Rocailles (R10)
331 19 001; 10/0; 78102; 180x

PRECIOSA Rocailles (R8)
331 19 001; 8/0; 78102; 6x

PRECIOSA Rola™ (RO5)
341 59 001; 5 x 3,5 mm; 78102; 30x
341 79 001; 5 x 3,5 mm; 00050 matt

PRECIOSA Rola™ (RO7)
341 59 001; 7 x 3,5 mm; 78102; 12x
341 79 001; 7 x 3,5 mm; 00050 matt

PRECIOSA Rola™ (RO10)
341 59 001; 10 x 5 mm; 78102; 18x
341 79 001; 10 x 5 mm; 00050 matt

PRECIOSA Triangles (T)
321 43 001; 2,5 x 2,5 mm; 78102; 18x
321 44 001; 2,5 x 2,5 mm; 00050 matt

0,3 stainless steel wire – 1.80 m
snipping pliers; flat-nose pliers

Difficulty: 

Procedure:

Step 1:
Cut off the 0,3 wire at a length of ca 1.80 m.
(Note: Three arms of the snowflake are made from one half of the wire and the remaining three are made from the second half of the wire).
String 1x RO5, 1x R10, 1x RO5 and 3x R10 approximately in the middle of the length of the wire. Thread it back through 1x RO5 and 1x R10 and tighten the wire.
Leave the first strung RO5 seed bead free.

Step 2:
String 1x R10, 1x RO5, 1x R10, 1x RO7 and 3x R10. String 1x RO7 and 1x R10 and tighten the wire.

Step 3:
String 1x R10, 1x RO5, 1x T, 1x RO10 and 3x R10. Thread the wire through 1x RO10 and 1x T and tighten the wire.

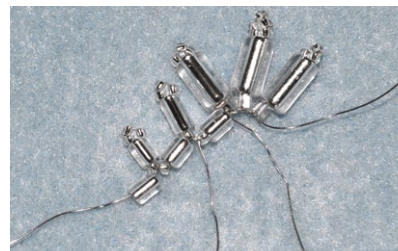

Step 4:
String 1x T, 1x RO10 and 5x R10. Thread the wire through 1x RO10 and 1x T and tighten it.

Step 5:
Now add the second side as a mirror image.
String 1x T, 1x RO10 and 3x R10.
Thread the wire through 1x RO10 and 1x T and tighten it.

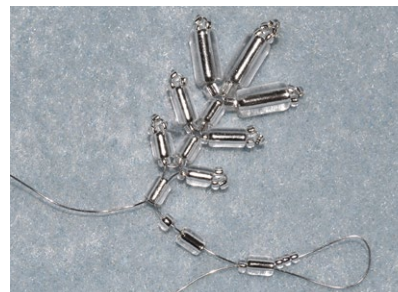

Step 6:
Thread the wire through the central 1x RO5 and 1x R10. Tighten the wire.
Proceed similarly in the case of the RO7 and RO5.

Step 7:
Thread the wire through the free RO5 at the end.

Step 8:
Always start the remaining 5 arms of the snowflake with 1x R8 and then repeat the individual steps according to figs. 1-7.

Step 9:
String the last (sixth) R8 and 1x R10 and thread the wire through the following 1x R8.
Gradually fill the gaps between the R8 seed beads with R10 (a total of 5x).

Step 10:
Thread the second end of the wire around through the seed beads. Affix the ends of the wires by threading them through the central RO5 beads of one of the nearest snowflake arms and cut them off.
Shape the snowflake.

Color variants:

1) crystal with a silver lining
used seed beads:
PRECIOSA Rola™, PRECIOSA Triangles and PRECIOSA Rocailles
6x R8, 18x T, 180x R10
The T can be replaced with R8, in which case 24x R8 are necessary

2) crystal matt (frost)
used seed beads:
PRECIOSA Rola™ and PRECIOSA Rocailles
24x R8 matt, 180x R10 transparent
some of the R8 can be replaced with T, in which case 6x R8 and 18x T are necessary
